

Be the
Light
you want to see

I would like to extend my warmest gratitude for taking the time to read our prospectus. Your interest in Universitas Muhammadiyah Surakarta (UMS) means a lot to us, and we are honored to have the opportunity to introduce ourselves to you.

As you flip through the pages, you will get a glimpse of what we stand for, our mission, and our vision. You will see that at UMS, we are committed to fostering a dynamic and inclusive community, where students can thrive both academically and personally.

UMS is a renowned university founded on the principles of the Muhammadiyah organization. We are dedicated to providing quality education, driven by a strong commitment to community transformation, enlightenment, and modernity. Our goal is to empower our students to become active and responsible citizens who can contribute positively to society.

At UMS, we believe that education is a key component of personal growth and social progress. That's why we are committed to providing our students with the knowledge, skills, and experience they need to succeed in their chosen fields. We also strive to create a welcoming and supportive environment where our students can learn and grow, both in and out of the classroom.

We hope that our prospectus serves as a comprehensive introduction to UMS, and provides you with all the information you need to make an informed decision about your future. Our goal is to give you an accurate representation of what UMS has to offer, and to answer any questions you may have about our programs, facilities, and resources. We are confident that you will find that UMS is a place where you can achieve your goals and reach your full potential. We are proud of what we have to offer, and we are eager to share our achievements with you.

If you are a prospective student, we extend a warm invitation to join our vibrant community of learners. We believe that UMS is the perfect place to grow and develop, both personally and professionally. Whether you are interested in pursuing a degree in one of our many academic programs, or simply seeking a supportive and inclusive environment, we are here to help.

If you are a prospective partner, we welcome the opportunity to connect with you and explore ways in which we can work together. At UMS, we value collaboration, and we believe that by partnering with organizations, we can make a positive impact on our communities and the world.

Thank you again for your interest in UMS, and I look forward to welcoming you to our community.

Sincerely,

Professor Sofyan Anif

New Perspectives,

Expanded Horizons

Studying abroad is an unparalleled opportunity to gain a new perspective on the world. Immersing yourself in a new culture and environment allows you to gain a deeper understanding of different ways of life and different ways of thinking. This can broaden your perspective, challenge your assumptions, and make you a more open-minded and well-rounded individual.

Studying abroad also provides a wealth of practical benefits. You will have the opportunity to learn a new language, expand your professional network, and gain valuable skills and experiences that will set you apart in the job market. Additionally, studying abroad can be a life-changing experience that helps you to grow as a person, develop your independence, and discover new passions and interests.

Indonesia is a country that is rich in culture, history and diversity. It offers a unique experience to international students with its beautiful landscapes, delicious food, and friendly people. Learning in Indonesia will give students the chance to experience the local customs and way of life, which will be a valuable addition to their personal and professional development.

Indonesia is also an up-and-coming economic power in Southeast Asia, and studying in Indonesia will provide students with a solid foundation for pursuing a career in this region. The country has a growing number of opportunities in various sectors, including technology, tourism, and manufacturing. Additionally, studying in Indonesia can open doors to other countries in Southeast Asia, providing students with a vast array of career opportunities.

Hidden Gem In the **Heart of Java**

Surakarta, also known as Solo, is a city in Central Java, Indonesia. It is located approximately 96 KM east of the city of Yogyakarta and is considered to be one of the cultural centers of Java. The city is known for its traditional arts and crafts, including batik and wayang puppetry.

The climate in Surakarta is tropical, with high humidity and temperatures averaging around 27 degrees Celsius. The city experiences a rainy season from October to April, and a dry season from May to September.

Surakarta is also home to the royal palace of the Susuhunan, the traditional ruler of the Kasunanan Surakarta. The palace, known as the Kraton, is a complex of buildings and courtyards that is open to visitors and is considered to be an important example of Javanese architecture.

The city is also a major center for Javanese culture and tradition, including gamelan music and dance, traditional shadow puppet theater and other performances.

Surakarta is also well known for traditional batik making and the city has a lot of batik producing centers and traditional market that sell batik. The batik industry is one of the major economic sectors in Surakarta. Transportation in Surakarta is relatively easy and convenient. The city has a well-developed public transportation system, which includes buses, minibuses, and becak (pedicabs). Taxis and private cars are also widely available. The city also has a bus rapid transit system, known as Trans Solo, which connects the city center with the surrounding areas. The city's Adisumarmo International Airport is located about 15 km from the city center and serves regular domestic and international flights.

Overall, Surakarta is a vibrant and culturally rich city with a wide range of attractions and activities to suit different interests and budgets. The city's transportation and accommodation infrastructure is well-developed and provides visitors with easy access to all the city's main attractions and amenities.

Surakarta is the most livable city in Indonesia

Finding My Path,

Navigating Uni Life

Universitas Muhammadiyah Surakarta (UMS) is a public university located in the city of Surakarta, Central Java, Indonesia. It is one of the oldest and most well-respected universities in the region, known for its strong academic programs and research opportunities.

The university campus is located in the heart of the city and is easily accessible by public transportation. The campus is well-equipped with modern facilities, including libraries, laboratories, and computer centers. The campus also has a variety of student organizations and clubs, as well as sports facilities such as a gym and soccer field.

The campus life at UMS is considered to be active and vibrant, with a wide range of extracurricular activities and events that are organized by the students, such as cultural performances, competitions and sports events.

The university also has a strong focus on student welfare, and provides various services such as counseling and student housing. The university also has an active student government, which plays an important role in shaping the student experience at UMS.

Overall, studying at UMS provides students with a well-rounded education, both academically and socially. The university is known for its strong commitment to student success and offers many opportunities for students to get involved in the university community.

Our Values **In Action**

UMS is a part of Muhammadiyah, a prominent Islamic organization founded in 1912 in Indonesia. With the goal of modernizing and transforming the community, its founding members aimed to address the challenges faced by the community through education and community development initiatives. The organization has since grown to become one of the largest and most influential Islamic organizations in Indonesia and Southeast Asia, with over 30 million members worldwide. In keeping with its founding mission, Muhammadiyah remains at the forefront of community development efforts, promoting education, community empowerment, and social justice for all. At UMS, we wholeheartedly embrace this purpose and strive to embody these values in all that we do.

Community Transformation

Muhammadiyah's value of community transformation is reflected in UMS's commitment to empower the wider society. Our programs are designed to not only enhance the knowledge and skills of our students but also to promote community growth and advancement. We believe that education is a powerful tool for social change, and we strive to embody this belief in all of our efforts.

Community Enlightenment

Muhammadiyah believes the importance of community enlightenment in teaching. UMS shares this belief and is dedicated to providing students with a well-rounded education that prepares them not just for their careers, but also for a purposeful life. Our curriculum is designed to broaden students' perspectives and help them understand the world around them, so that they may be equipped to make a positive impact on society.

Modernity and Education for All

Muhammadiyah's values of modernity and education for all are integrated into UMS's vision. Our goal is to provide quality education to as many people as possible, regardless of their background or socioeconomic status. We believe that education should be accessible to all and should strive to keep pace with the rapid advancements in technology and society.

Our students are encouraged to strive for excellence in their academic pursuits, while also developing a strong sense of social responsibility. We believe that education should be both intellectually challenging and compassionate, and that our graduates should leave UMS as well-rounded individuals, ready to make a difference in the world.

Transcending

Physical Classroom Confinement

At Universitas Muhammadiyah Surakarta (UMS), we believe that education should not be limited to the walls of a classroom. Our teaching philosophy is designed to bridge the gap between academics and the real world, and to empower our students to become agents of change in their communities.

Out in the Real World

One of the ways we achieve this is through our emphasis on hands-on, experiential learning. Our curriculum is designed to immerse students in real-world problems and challenges, giving them the opportunity to apply their knowledge and skills to make a positive impact in the world.. We want our students to leave UMS not only with a solid academic foundation, but also with the skills and confidence to be the best version of themselves. Furthermore, UMS has a strong collaboration with local and international industries and organizations, which will provide students with opportunities to gain practical experience and to make a meaningful impact in the real world.

Original Thinking

In addition, UMS is committed to fostering an environment that encourages original thinking. Our faculty is dedicated to challenging our students to think critically, question assumptions, and explore new ideas. At UMS, we are dedicated to providing our students with an education that not only prepares them for success in their chosen careers, but also equips them with the knowledge, skills, and mindset to be agents of change in their communities and the world.

Beyond the Classroom:

Entrepreneurship, Alumni Network, and Muhammadiyah Network at UMS

Our commitment to providing our students with the skills and knowledge they need to succeed in today's fast-paced and ever-changing job market is just relentless.

Provide jobs for others!

One of the key ways we achieve this is through our emphasis on entrepreneurship. Entrepreneurship is particularly important in a developing country like Indonesia, as it plays a crucial role in driving economic growth and creating jobs. By providing our students with the skills and knowledge they need to start and grow their own businesses, we are not only helping them to create their own opportunities, but also contributing to the development of the country as a whole.

A lot of our alumni have gone on to establish their own businesses and create jobs, and we are proud of the role we have played in helping them to achieve this. Our study programs have integrated entrepreneurial components, which provide students with the knowledge and skills they need to start and grow their own businesses.

A World of Opportunities

In addition to our emphasis on entrepreneurship, UMS also provides students with the benefits of a vast alumni network. We have produced hundreds of alumni throughout the years, and our graduates are working in hundreds of sectors all over Indonesia and the world. This network provides our future graduates with a wealth of opportunities for career development, as well as a valuable network of professional connections that can be leveraged throughout their careers.

Furthermore, UMS is a part of Muhammadiyah network, which not only includes other Muhammadiyah universities, but also includes a network of schools, hospitals, and other institutions. This network provides our graduates with a wide range of opportunities for career development and advancement, both within the Muhammadiyah organization and outside of it. The network is a valuable resource for our graduates, as it can provide them with access to job openings and mentorship opportunities, as well as a sense of community and support as they navigate their careers.

A person wearing a blue and white uniform with the Universitas Muhammadiyah Surakarta (UMS) logo is working on a blue and white mechanical device. The person is wearing yellow gloves and is focused on the task. The background is blurred, showing other people in similar uniforms and a green wall.

Transforming Community through Research

At Universitas Muhammadiyah Surakarta (UMS), we are committed to driving the transformation of our community through research. Our research is not just about bridging the gap between academia and the community, but it is also about being natively built within the community. Our central message is one of enlightenment and transformation, as we strive to identify better ways of doing things and establish sustainable living for all members of our community.

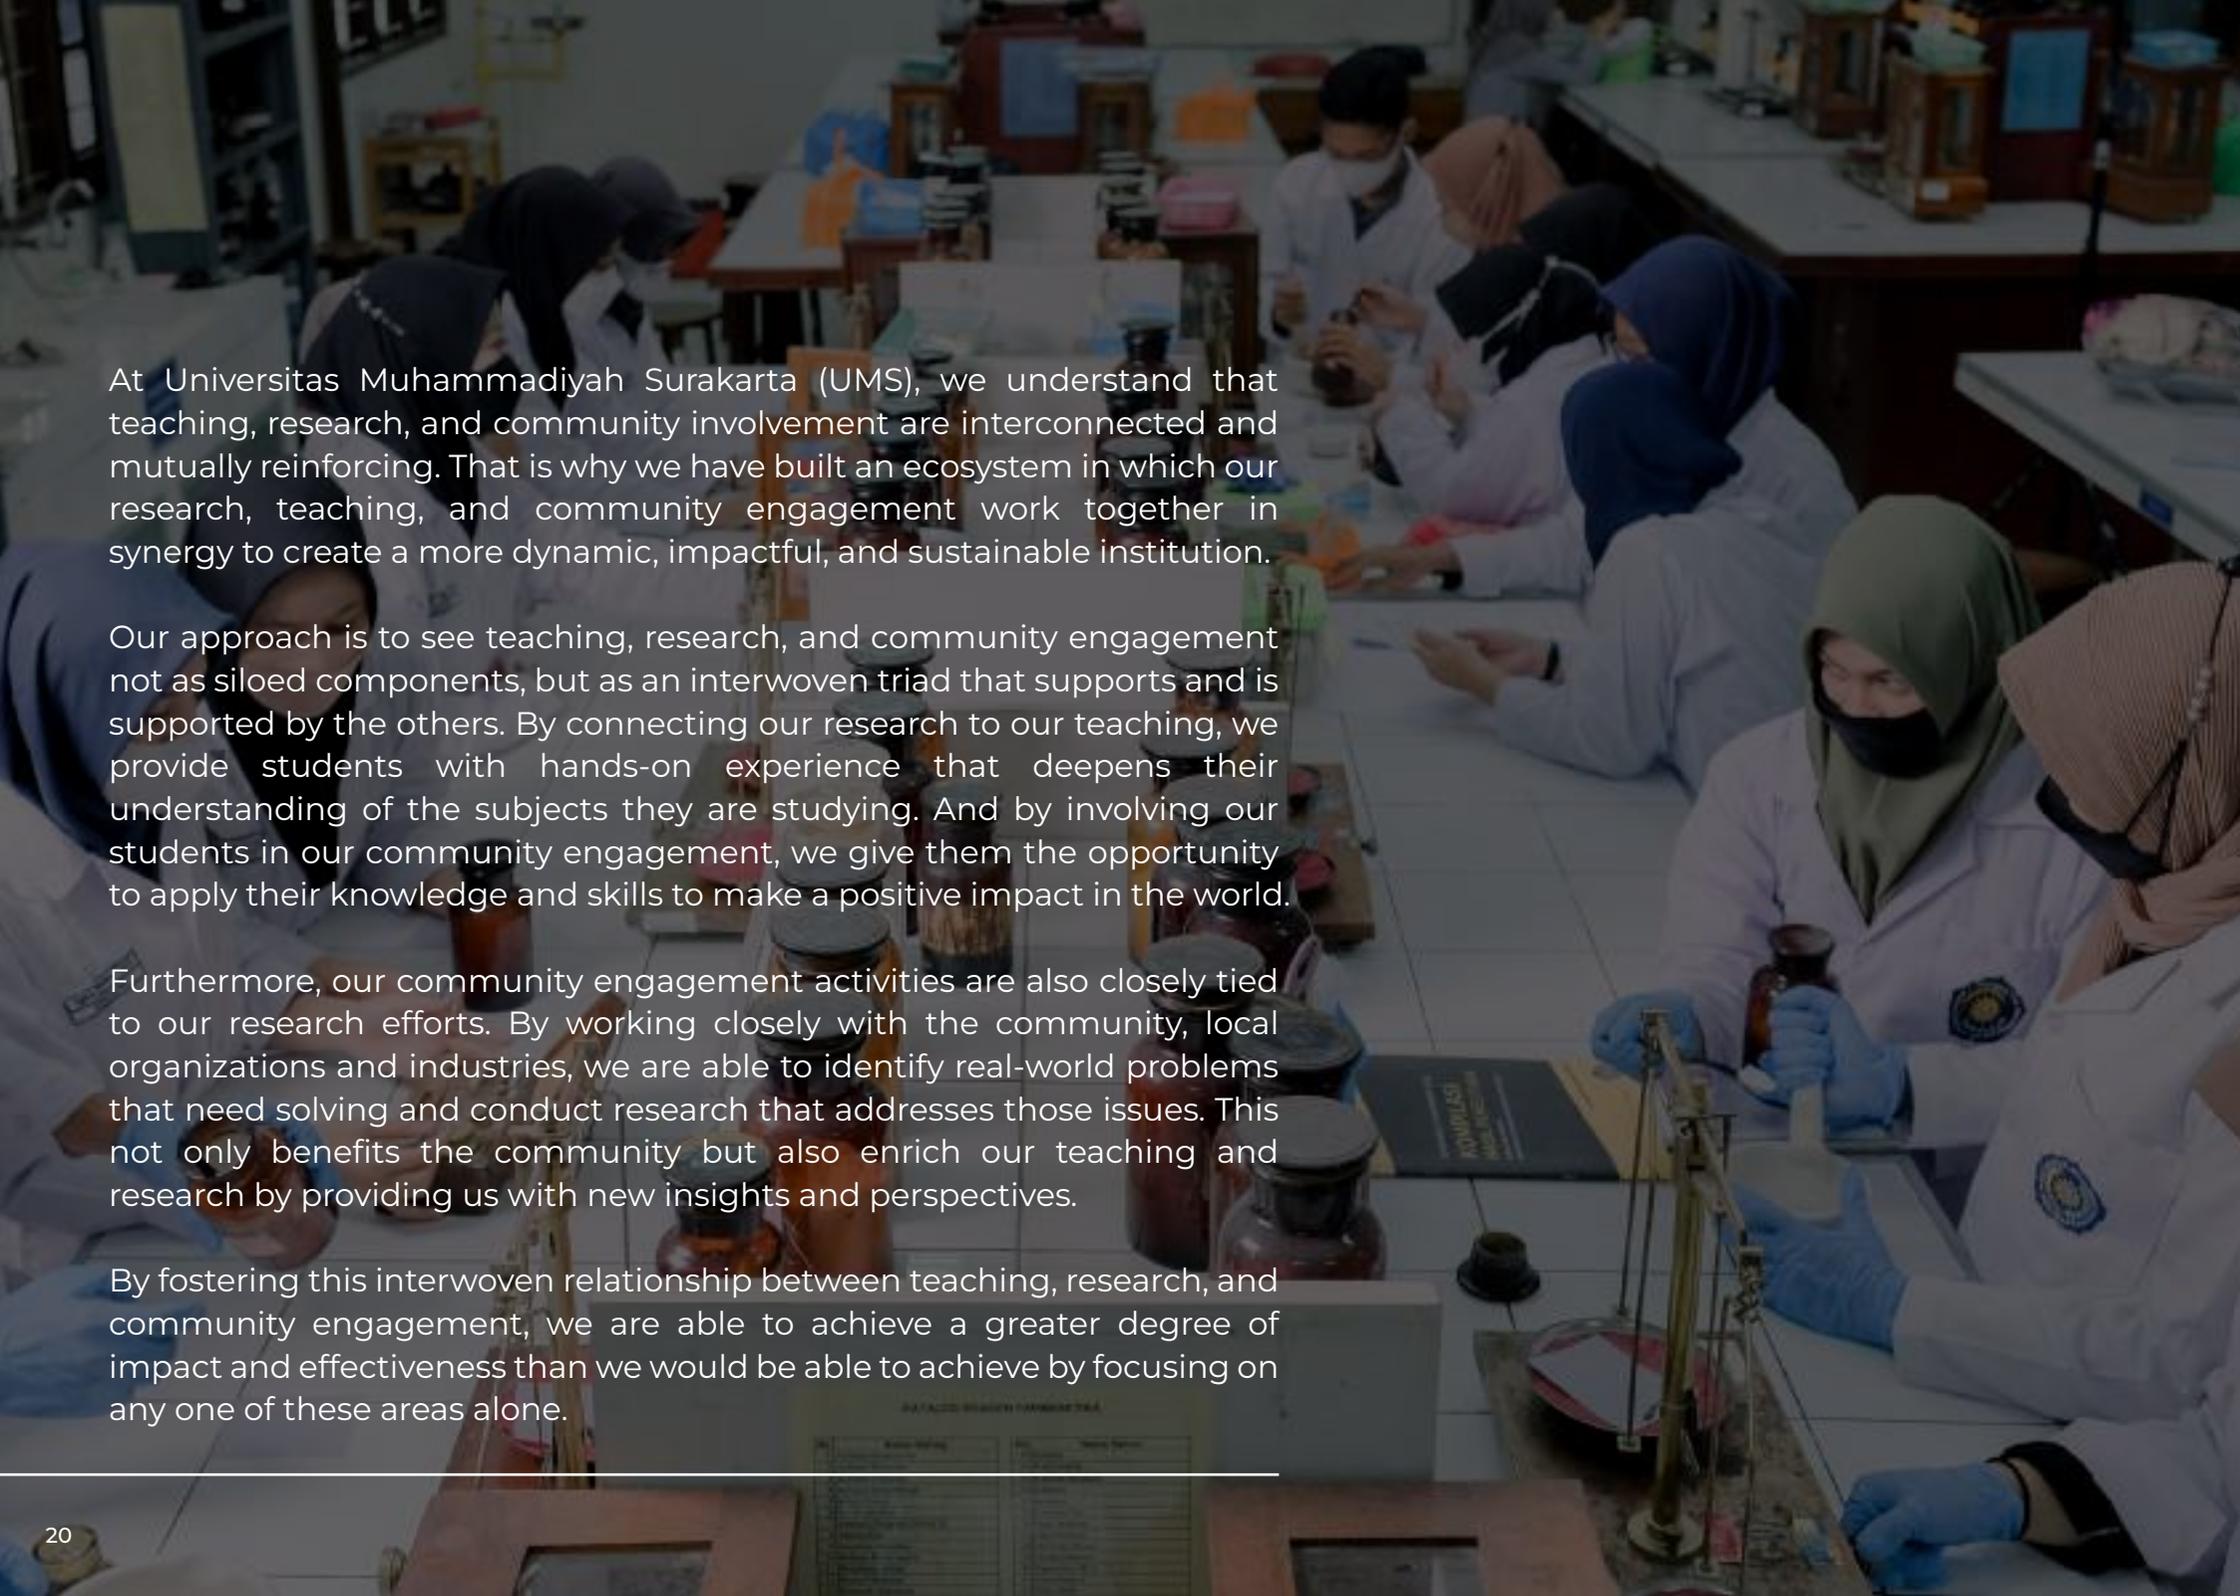

Fostering Community through Research

Our drive to shed light on the community is not just a claim, but it is something that we actively strive to do through our research. We do this in two ways. First, we inform policy makers and decision-makers about the issues faced by our community and the solutions that our research has identified. Secondly, we implement the results of our research directly in the community, through community outreach programs and other initiatives. By fostering the community in this way, we are not only improving the lives of individuals, but we are also working towards creating a more sustainable and equitable society for all.

Advancing Society through Research

Our drive to identify better ways of doing things is at the core of our research at UMS. We are constantly looking for ways to advance society and establish sustainable living. Our research is focused on finding solutions to the problems faced by our community and implementing those solutions in a way that benefits everyone. We believe that by constantly looking for ways to improve, we can help create a better future for all members of our community.

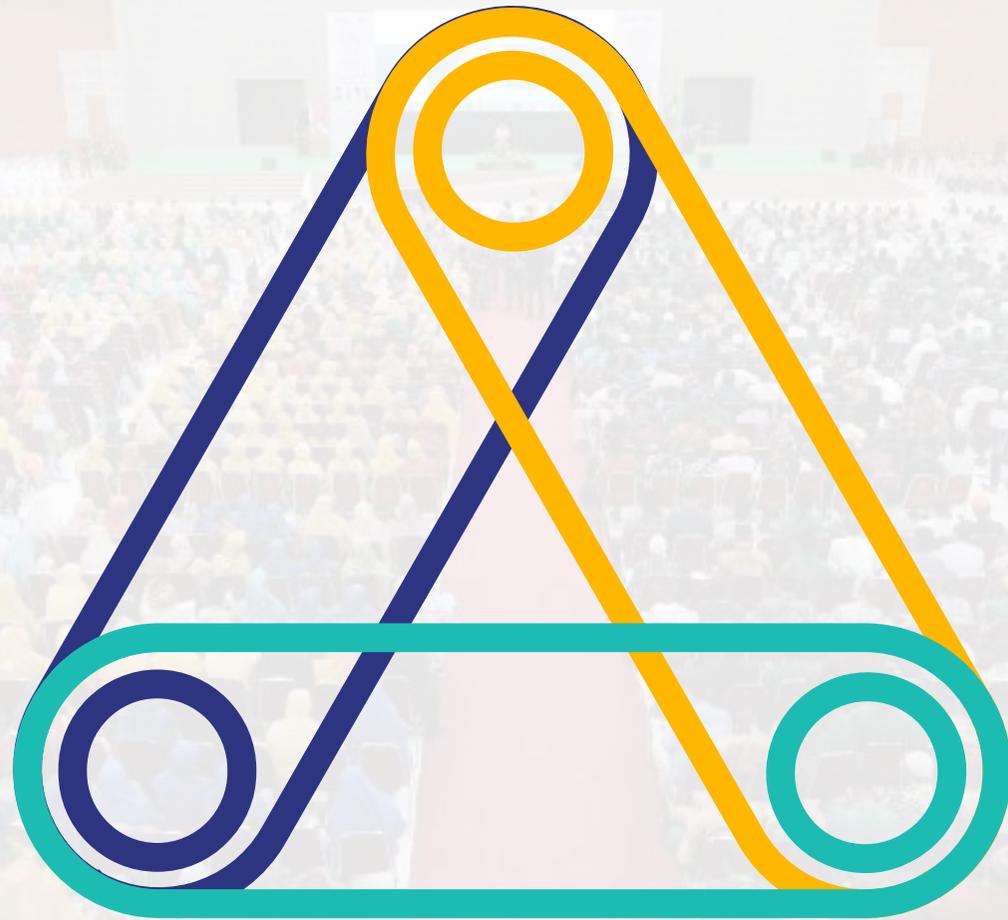

At Universitas Muhammadiyah Surakarta (UMS), we understand that teaching, research, and community involvement are interconnected and mutually reinforcing. That is why we have built an ecosystem in which our research, teaching, and community engagement work together in synergy to create a more dynamic, impactful, and sustainable institution.

Our approach is to see teaching, research, and community engagement not as siloed components, but as an interwoven triad that supports and is supported by the others. By connecting our research to our teaching, we provide students with hands-on experience that deepens their understanding of the subjects they are studying. And by involving our students in our community engagement, we give them the opportunity to apply their knowledge and skills to make a positive impact in the world.

Furthermore, our community engagement activities are also closely tied to our research efforts. By working closely with the community, local organizations and industries, we are able to identify real-world problems that need solving and conduct research that addresses those issues. This not only benefits the community but also enriches our teaching and research by providing us with new insights and perspectives.

By fostering this interwoven relationship between teaching, research, and community engagement, we are able to achieve a greater degree of impact and effectiveness than we would be able to achieve by focusing on any one of these areas alone.

TEACHING

RESEARCH

COMMUNITY

A World of Footprint

Universitas Muhammadiyah Surakarta (UMS) is committed to providing our students with a world-class education that prepares them for success in an increasingly interconnected and globalized world. One of the ways we achieve this is through our emphasis on internationalization.

We are proud to have a vast network of international partners, which includes universities, research institutions, and organizations from around the world. These partnerships not only provide our students with opportunities to study abroad and gain international experience, but also allow us to collaborate on research projects, exchange best practices, and co-create new knowledge.

Our student body is also diverse, we have a large number of international students who come from various countries. They bring different perspectives and experiences to our campus, which enriches the learning environment for all students.

Additionally, our academic staff is diverse, many of our faculty members have graduated from reputable international institutions, and have experience working and conducting research in different countries. This allows them to bring a global perspective to their teaching and research, which benefits our students.

We believe that studying at an internationally oriented institution such as UMS provides students with a unique set of skills and experiences that will be valuable in today's globalized world. Furthermore, partnering with our internationally oriented institution also benefits other stakeholders, such as researchers and organizations, by providing them with access to a diverse network of experts and collaborators, and opportunities for international collaboration.
